(*7*) Before any conductor or apparatus is handled, adequate precautions shall be taken, by earthing or other suitable means, to discharge electrically such conductor or apparatus, and any adjacent conductor or apparatus, if there is danger therefrom, and to prevent any conductor or apparatus from being accidentally or inadvertently electrically charged when persons are working thereon. While lamps are being changed the pressure shall be cut off.

Provided that this sub-rule shall not apply to the cleaning of commutators and slip-rings working at low or medium pressures.

(8) The person authorised to work an electrically driven coal-cutter or other portable machine shall not leave the machine while it is working, and shall, before leaving the place where such machine is working ensure that the pressure is cut off from the flexible trailing-cable which supplies such machine. Trailing-cables shall not be dragged along by the machine when working.

(9) Every flexible cable shall be examined periodically by the person authorised to work the machine, and, if such cable is used with a portable machine, he shall examine it at least once in each shift. If such cable is found to be damaged or defective, it shall forthwith be replaced by a spare cable in good and substantial repair. No damaged or defective cable shall be further used underground until it has been properly repaired.

Precautions where gas exists.

99. (1) In any part of a mine or oil-field or in any working approaching such part, in which inflammable gas or vapour, although not normally present, is likely to occur in quantity sufficient to be indicative of danger, the following additional requirements shall be satisfied as regards all apparatus, including such apparatus as is working at low pressure :—

(a) All cables, apparatus, signalling wires and signalling instruments shall be constructed, installed, protected, worked and maintained, so that in the normal working thereof there shall be no risk of open sparking.

(b) All motors shall be constructed, so that, when any part is live, all rubbing contacts (such as commutators and slip-rings) are so arranged or enclosed as to prevent open sparking.

(c) The pressure shall be switched off the apparatus forthwith if open sparking occurs, and during the whole time that examination or adjustment disclosing parts liable to open sparking is being made. The pressure shall not be switched on again until the apparatus has been examined by the electrician or one of his duly appointed assistants and the defect (if any) has been remedied or the adjustment made.

(d) Every electric lamp shall be enclosed in an air-tight fitting, and the lamp globe itself shall be hermetically sealed.

(e) A safety lamp shall be provided and kept continually burning near each motor when working and, should the appearance of the flame of such safety lamp indicate the presence of inflammable gas, all pressure shall immediately be cut off from apparatus in the vicinity thereof and the matter shall be reported forthwith to an official of the mine.

(2) If at any time in any place in such mine the percentage of inflammable gas in the general body of the air is found to exceed one and a quarter, the supply of energy shall at once be cut off from all cables and apparatus in that place and shall not be recontinued so long as the percentage of inflammable gas exceeds that amount.

Shot-firing and signalling in mines.

100. (1) Where shot-firing is being carried on in any mine—

(a) Temporary precautions shall be taken to protect conductors and apparatus from injury.

(b) Current from lighting or power circuits shall not be used for firing shots.

(c) Shot-firing cables shall be covered and protected as provided by rule 97 for flexible cables. Adequate precautions shall be taken to prevent them from touching other cables and apparatus.

(2) Where electrical signalling is used in any mine—

(a) Adequate precautions shall be taken to prevent signal and telephone wires from touching cables and other apparatus.

(b) The pressure used in any one circuit shall not exceed 15 volts.

(c) Contact-makers shall be so constructed as to prevent the accidental closing of the circuit.

Haulage in mines.

101. Haulage by electric locomotives on the overhead trolley-wire system, at pressures not exceeding medium and haulage by storage battery locomotive, may be used in any mine or oil-field, with the consent in writing first obtained of an Electric Inspector in all cases, and subject to such conditions affecting safety as may be made by him.

Exemptions.

102. (*1*) The provisions of rules 85 to 100, both inclusive, shall not apply in any case in which exemption is obtained on such conditions as he may prescribe from an Electric Inspector, or, in the case of the Burma oil-fields, from the Warden of the oil-fields, on the ground either of emergency or special circumstances.

(*2*) Notwithstanding anything in these rules, any electrical plant or apparatus installed, or in use, in any mine before the 23rd December, 1910, or in any oil-field before the coming into force of these rules, may be continued in use unless an Electric Inspector, after consulting the Chief Inspector of Mines, or, in the case of the Burma oil-fields, the Warden of the oil-fields, as the case may be, shall otherwise direct, but subject to any conditions affecting safety that such Electric Inspector may impose.

*Relaxation of Rules.*

By Local Government.

103. The local Government may, by order in writing, direct that any of the provisions of rules 36 to 102, both inclusive, be relaxed in any particular case to such extent and subject to such conditions (if any) as it may think reasonable and proper in the circumstances.

By Electric Inspector.

104. (*1*) An Electric Inspector may, by order in writing, direct that rules 35, 46, 53, 56 (*1*), 59, 60, 61, 62 (*1*) and 63, be relaxed in any particular case to such extent and subject to such conditions (if any) as he may think reasonable and proper in the circumstances.

(*2*) Where the pressure on any system does not exceed 125 volts an Electric Inspector may, by order in writing, direct that any of the provisions of rules 36 to 40, both inclusive, and 47 to 99, both inclusive, be relaxed as regards such system to such extent and subject to such conditions as he may think fit.

(*3*) Every relaxation so directed shall be reported forthwith to, and shall be subject to disallowance or revision by, the Local Government.

15. When a radio-telegram reaching a ship at sea cannot be delivered, the office or ship-station of origin will be informed by service advice.

16. (1) The sender of a radio-telegram to a ship may indicate the maximum period for which he desires the message to be kept at the coast-station.

(2) If the sender does not specify any period, the office of origin will be informed by service advice on the morning of the 8th day after the despatch of the radio-telegram that it has not been possible to deliver the message to the ship of destination. The sender, who will be informed by the office of origin, may then, if he chooses, request by means of a paid service advice to the coast-station (the prepayment being at the rate for a message to the coast-station, without payment of the wireless rate either for the coast-station or for the ship), that the radio-telegram may be retained for a further period of 9 days, and so on. *Message forms to be preserved.*

## CHITTAGONG DIVISION.

**Rules for the guidance of private candidates for the Matriculation Examination of 1923.**

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2 Private students are those who have not attended any recognized or unrecognized school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it :—

| Name of schools. | | | Dates of examination |
|---|---|---|---|
| (1) Comilla Zilla School | ... | ... | 4th, 5th, 6th, 7th and 8th December 1922. |
| (2) Noakhali Zilla School | ... | ... | |
| (3) Chittagong Collegiate School | ... | ... | |
| (4) Rangamati High English School | | ... | |

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination, unless he is accompanied for the purpose of identification by some person known to the head master of the institution in which he appears.

4. Application for permission to appear at the Test Examination must be sent in time so as to reach this office not later than the 5th November 1922. The information to be given and the documents to be appended, in original, are the following :—

(*a*) Name of the school in which the candidate last studied.

(*b*) Transfer certificate, in original, granted to the candidate by the head master of the school in which he last studied ; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, Controller's receipt, in original, for the fee paid.

(*d*) Age of the candidate. No candidate, who will not have completed the age of 16 years on the first day of the Matriculation Examination, will be allowed to appear at it.

(*e*) In the case of school masters, a certificate of good conduct from the secretary of the school in which he is serving or from the Inspector of the district or subdivision concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts :—

(i) Residence.
(ii) Father's name
(iii) Second language besides English.
(iv) Vernacular language for composition.
(v) Vernacular language from which translation is to be made into English in the first English paper.

(vi) Which of the following subjects he has taken up :—

(1) Additional mathematics.
(2) Additional paper in the classical language.
(3) History.
(4) Geography.
(5) Elementary mechanics.

(vii) The name of the school at the Test Examination of which the candidate wishes to appear must be stated. Candidates of the plains districts will not be allowed to appear at the Test Examination of the Rangamati High English School.

*N.B*—A student who failed to pass, or appear at, the annual examination for promotion to class X at the end of the session 1921 and then left the school can, under no circumstances, be allowed to appear at the Test Examination.

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the head master of the institution in which he intends to appear, at least 15 days before the date of that examination. The head master will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The head masters of the institutions named in paragraph 3 above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the applications to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1923 the exact dates of which will be notified by the University.

11. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

## REPORT ON THE ENQUIRY REGARDING THE MUTINY AT THE PRESIDENCY JAIL.

CALCUTTA, THE 8TH AUGUST 1922.

RESOLUTION—No. 7420R.J.

READ—

(1) Letters Nos. 2706 and 2744G.—555—22, dated, respectively, the 27th and 28th April 1922, from the Commissioner of Police, Calcutta, submitting a report on the mutiny in the Presidency Jail on the 26th April 1922.

(2) Letter No. 1D., dated the 8th May 1922, from the Inspector-General of Prisons, and enclosures on the same subject.

(3) Letter No. 720, dated the 7th June 1922, from the Chief Presidency Magistrate, Calcutta, submitting a report on the enquiry held by him regarding the mutiny with the records of the evidence.

ON the 26th April 1922 a mutiny occurred in the Presidency Jail, Calcutta, which contained on the morning of that day 1,782 prisoners. A police enquiry was at once held followed by a departmental enquiry. On the

27th April the Governor in Council also directed an enquiry to be held by the Chief Presidency Magistrate. This enquiry was started on the 28th April, and the report was submitted to Government on the 7th June. The report is now published for information. The Coroner of Calcutta also held an inquest into the deaths of the prisoners.

2. The facts relating to the actual occurrence on the 26th April 1922 and the causes which led to the outbreak are set out in detail in the report of the Chief Presidency Magistrate, and it is unnecessary to recapitulate them. Briefly, the incidents of that day are as follows. One Neamatullah, a prisoner, confined in the jail for an offence under the ordinary law, was missing from the file at roll call in the early morning of the 26th April last. This was a serious breach of jail discipline for which he was taken to task by the officiating head warder, who also, it appears to be established, assaulted him. Neamatullah was a little later in the day awarded punishment for his offence by the Superintendent, but the incident relating to the assault committed by the head warder was not mentioned, and no action was taken against this officer. These facts seem to have become generally known throughout the jail and the general body of the prisoners refused to take their midday meal, and following on attempts by the jail staff to induce them to do so, a large number of convicts rose in a body and began to attack the jail staff, and eventually the Superintendent of the jail found it necessary to open fire on the convicts. This proved ineffectual, and the Superintendent and his staff were compelled to retreat behind the main gate, where they maintained their position and prevented a general escape from the jail, though the jail itself was at the mercy of the convicts until the arrival of a strong body of police and troops. Altogether nine convicts were killed and forty-nine injured, while of the jail staff one warder died from injuries received, five other warders were seriously wounded and thirty-one others, including the Superintendent himself, received injuries. Fourteen convicts escaped over the wall, while the buildings were seriously damaged and raw material and manufactured articles to the extent of over three lakhs of rupees were destroyed by fire.

3. The Chief Presidency Magistrate has given a description of the antecedent history and events leading up to the outbreak, and he finds that the general cause was the arrival of the political prisoners in December last and the differential treatment meted out to them. This sowed the seeds of discontent and insubordination in the minds of the ordinary convicts and rendered them prone to revolt on getting a suitable opportunity. This conclusion the Governor in Council accepts. Already before that date there were indications in several places that the jail population had become affected by the general unrest prevailing outside and the arrival of the political prisoners on December 9th introduced a new element which proved very upsetting to the jail discipline. There can be no doubt that the contact of these prisoners with the ordidary convicts, which, owing to their numbers, it was impossible to avoid, together with the differential treatment accorded to the former, did make the ordinary prisoners less submissive and amenable to discipline and ready to combine against the authority of the jail officials.

4. The immediate cause, the Chief Presidency Magistrate finds, was the belief among the convicts that Neamatullah had been assaulted in the morning whilst at prayers, and that other convicts had been assaulted by the warders at the feeding yards. He, however, finds that the assault on Neamatullah did not take place while he was praying, but subsequently, and that there were no assaults on the convicts whilst in the yards. The Governor in Council accepts these conclusions. Though in his opinion there can be little doubt that the head warder did strike the convict Neamatullah, he does not believe that he did so whilst Neamatullah was saying his prayers. There is in fact direct evidence to the contrary, and the varied stories told by the convicts make it impossible to give credence to this part of their story.

5. In the opinion of the Chief Presidency Magistrate the assault was merely the occasion for the revolt which the convicts had planned to take place on the first suitable opportunity. The Inspector-General of Prisons has independently arrived at the same conclusion. His Excellency the

Governor in Council is not satisfied that this is clearly established, but the antecedent events, the combination of the convicts during the mutiny, the ease with which they apparently got weapons of offence and the rapidity with which they obtained command of the jail, certainly suggest the possibility of a preconceived plan. Moreover, whatever inflammatory effect the story of an alleged assault on a Muhammadan at prayers might have had on the Muhammadans, it is doubtful if this would be sufficient to inflame the Hindus who took part in the mutiny to the point of revolt. In the opinion of His Excellency in Council the mutiny may have been the result of a pre-arranged plan, to take place when an opportunity presented itself, but he is more inclined to think that it was unpremeditated and caused by the effect of the head warder's action on the excitable frame of mind which existed among the convicts at that date.

6. The next finding of the Chief Presidency Magistrate is that the situation would have been smoothed over for the time being had the whistle not been blown which led to the arrival of the reserve guard with their *lathis*. This again is a matter of speculation. Events at this point proceeded with great rapidity. Moreover, the person who blew the whistle has not been found and his reasons for blowing it have not been ascertained. The Governor in Council is unable to come to any definite conclusion regarding the justification for blowing the whistle, but he agrees with the opinion that this action precipitated a crisis which might otherwise have been averted. In any case it does not excuse the conduct of the convicts. His Excellency in Council cannot, however, agree with the Chief Presidency Magistrate that the situation would have been saved if the alarm bell had not been sounded. That bell was rung under the orders of the Superintendent on receipt of information that the warders were being stoned. In the circumstances its ringing was justifiable and imperative.

7. The last finding of the Chief Presidency Magistrate relates to the justification for the shooting. At the outset the Superintendent gave orders to the warders to shoot from the main gate and from the verandah above it, and he also ordered the jail walls to be surrounded by armed men in order to prevent prisoners escaping; in fact 14 prisoners actually managed to effect their escape by means of ladders. The Chief Presidency Magistrate finds that the shooting from the main gate and the upper verandah was necessary and justifiable to prevent the convicts from breaking out of the jail. On the other hand, he finds that the shooting from the sergeants' quarters, the police hospital quarters and the trees, was unjustifiable on the ground that "it is apparent that it was not directed at the prisoners who, it is alleged, have escaped, or at those who were trying to escape, but rather at those who were concealing, or attempting to conceal themselves or were endeavouring to extinguish the fire." The Governor in Council cannot accept this opinion, and is surprised that it should have been expressed with so little evidence to support it. The witnesses who could have elucidated the matter were asked no questions regarding the firing. There is therefore no evidence on record as to who fired, why they fired, at whom their fire was directed or with what effect, except that of one man whose evidence shows that he was justified. The opinion expressed by the Chief Presidency Magistrate is apparently based solely upon a subsequent examination of the ground and on the impression there formed as to the direction from which certain shots had been fired, the marks of which could be seen on the buildings.

This finding, moreover, is supported by an assertion which is in direct conflict with the evidence. It is stated in the report that the escape of the prisoners was not known till after the event, and therefore the shooting could not have been directed towards the escaping prisoners. Not only is there evidence to the contrary, but the fact that 14 prisoners actually escaped indicates the probability that a larger number must have been attempting to escape. Shooting at such persons would have been justified by the rules in the Jail Code in the case of a general outbreak of this description. His Excellency in Council cannot therefore but regret that criticisms should have been made on such inadequate grounds without the examination of the men who fired the shots. He has considered the desirability of ordering a further

enquiry with the object of establishing the justification or otherwise of the firing referred to by the Chief Presidency Magistrate, but has come to the conclusion that it is now too late for such an enquiry to be held. Any persons who could now be examined would know exactly what were the points at issue and evidence obtained in such circumstances would be of little value.

The verdict of the Coroner's jury in the case of the deaths of the nine prisoners was unanimous to the effect that they were caused by the gun-shot wounds received in a riot in the Presidency Jail and that the Superintendent of the jail was perfectly justified in giving the order to fire. That there was some wild and indiscriminate shooting in the excitement of a large mêlée of this description, particularly amidst the smoke of the burning buildings and materials, is almost certain. But the Governor in Council is satisfied that there is no evidence to show that any of the shooting was not justified by the jail regulations and the situation at the time, and it must be remembered that it was only the shooting directed against the escaping prisoners which prevented a large proportion of the jail population from climbing over the ladders by which the 14 prisoners escaped and becoming a serious danger to the community.

8. The other conclusions of the Chief Presidency Magistrate dealt with in the body of his report are accepted by His Excellency in Council.

9. In dealing with the events of the day leading up to the outbreak, it would appear that the jail staff were in fault in two respects. In the first place, the head warder, Jagdeo Singh, should not have struck the convict. It is true that the convict Neamatullah was to blame for being absent from the roll call, but His Excellency in Council cannot accept this as any justification for action on the part of the ead warder which is strictly forbidden by the regulations. Therefore, although Jagdeo Singh afterwards redeemed his fault and has been mentioned by the Superintendent for his bravery during the actual mutiny, His Excellency in Council cannot overlook the matter. The second fault was the error of judgment of the Chief Jailor in not bringing to the notice of the Superintendent the assault, however, petty he may have considered it, by the head warder on Neamatullah. The Governor in Council cannot, however, ignore the fact that Neamatullah himself omitted to mention the matter to the Superintendent when he had the opportunity. The Governor in Council is not, therefore, disposed to take any further action beyond expressing the opinion that an error of judgment was committed by Mr. Ryan, which was a contributory cause to the subsequent trouble. This error was also redeemed by Mr. Ryan, who is reported by Colonel Hamilton to have shown great pluck and determination during the retreat by the main gate and received a wound on his right hand by a heavy iron bar thrown by one of the mutineer convicts.

10 The Governor in Council regrets that such an outbreak has occurred and that so many deaths and injuries resulted from it. The convicts were, however, undoubtedly the aggressors ; and if the Superintendent, Colonel Hamilton, had not acted with great decision and promptitude, nearly 1,800 prisoners, including a large number of dangerous characters, might have escaped and become a formidable danger to the peace of Calcutta, and they would probably have massacred the whole of the jail staff. The effect on the population of other jails in the province would have been disastrous and might have led to similar outbreaks elsewhere. The staff of the jail and, in particular, the warders who have shown themselves equal to such an emergency are deserving of great praise. His Excellency in Council has therefore much pleasure in recording his strong appreciation of the action taken by Colonel Hamilton to prevent the escape of the prisoners and to suppress the mutiny and of the loyalty and bravery of the staff. The Governor in Council has already conveyed to the General Officer Commanding his appreciation of the services of the troops. He now desires here to convey to the police and the Fire Brigade his thanks for the assistance they so promptly rendered.

By order of the Governor in Council,

M. C. McALPIN,
*Secretary to the Government of Bengal.*

# REPORT ON THE

# ENQUIRY REGARDING THE MUTINY

# AT THE PRESIDENCY JAIL.

This is an enquiry held under the orders of the Government, dated the 27th April 1922, into the outbreak which occurred in the Presidency Jail on the 26th April 1922. This enquiry was held by me, with the help of the Public Prosecutor Rai T. N. Sadhu Bahadur at the Presidency Jail. The enquiry commenced on the 28th April 1922. On the following day I inspected the different portions of the jail and interviewed the convicts, a large number of whom volunteered to give evidence. Of these, I have examined 30. I have also examined 15 of the jail staff, including the Superintendent, Jailor, Hospital-Doctor, 2 Assistant Jailors and warders. The jail staff consists of the Superintendent, Deputy Superintendent, Jailor, 7 Assistant Jailors and 151 warders, including jamadar. There are usually about 1,800 convicts in this jail. From the evidence it appears that prior to the advent of the Khelafat non-co-operation prisoners on the 9th of December 1921, the ordinary convicts were fairly contented, there being occasionally a little grumbling with reference to the food, which was set right. From the 9th December the Khelafat non-co-operation prisoners (referred to hereafter as Khelafat prisoners) were brought into this jail in very large numbers, completely dislocating the working of the jail, and owing to the great influx of these prisoners, which aggregated at one time about 1,400, it was found impossible to keep them employed. As far as possible the Khelafat prisoners were kept in the northern side of the jail and the ordinary convicts in the southern side. There were, however, a number of Khelafat prisoners who were convicted and brought into this jail among the ordinary convicts under various sections of the Indian Penal Code. The jail became dangerously overcrowded and the jail staff very much overworked, frequently having to work till past mid-night in order to cope with the enormous amount of extra work, and it became impossible for the Jailor to devote much attention to the ordinary convicts. The Superintendent, however, impressed on the jail staff the importance of keeping discipline amongst the ordinary convicts. The serious state of affairs was from time to time brought to the notice of the Inspector-General of Prisons by the Superintendent. It being brought to the notice of the latter that the warders, through fear of the Khelafat prisoners, might be compelled to hold a *hartal*, he wrote and obtained the assistance of 19 Punjabis, which had the effect of preventing the warders from striking. When the Khelafat prisoners first came into this jail, they were fed on the same diet as the ordinary prisoners. This, however, did not last long. The Khelafat prisoners began agitating and complaining about the quality of food which they declined to eat. The Superintendent received orders from Government that the "*bhadralok* class" prisoners should have special food. But owing to the fact that there were so many of them and so mixed up that it was impossible for the jail staff to discriminate between the prisoners, the Superintendent ordered the entire body of those prisoners to be provided with special food. The food for the ordinary convicts consisted of, rice and *dâl* boiled together, rice and molasses boiled together, *tarkari* (vegetable curry), hand-made bread and *chatni* (tamarind water) and fish. The special food for the Khelafat prisoners consisted of *halua*, bakers, bread, sugar, better class of rice, fish, meat and better class of curry. The ordinary convicts on seeing that better class of food was provided for the other prisoners, frequently asked them for a portion of their food which sometimes these prisoners shared with them, other times they used to decline to give them any portion, saying that they were not entitled to

it, but that they could only get it by united agitation and by making the lives of the jail authorities intolerable. It being impossible to search the Khelafat prisoners, it appears that they smuggled nationalist newspapers which they passed on to the ordinary convicts. The Khelafat prisoners also spread a rumour throughout the jail that the British Raj was to come to an end on the 31st December or soon thereafter, and that Gandhi was coming to break down the walls of the jail and set the prisoners free. These combined with the better treatment of the Khelafat prisoners had a very unsettling effect on the ordinary convicts and made them discontented and less amenable to jail discipline. Their grievances being that although they worked hard, their food was worse than that of the Khelafat prisoners, who did nothing all day On the 24th December they went on hunger strike, but after that, work went on as usual, excepting that complaints about food being bad, began to crop up. On the 25th January 1922 a convict brutally assaulted the Sub-Assistant Surgeon in the presence of the Superintendent, who had him immediately severely punished. On the same day the ordinary convicts again went on hunger strike. Some representatives of the convicts appeared before the Superintendent, who on enquiry into the matter found that the garden vegetable had been exhausted, leaving only *sag*, and he gave orders that vegetable should be purchased locally for the convicts, and the quantity of rice to be increased by one chitak per man and some 5 or 6 "B Class" convicts (old offenders) were permitted to supervise the cooking and to examine the vegetables. On the 6th March there was another hunger strike owing to the shortage of vegetables issued. This was remedied after enquiry, and one maund and twenty seers more than the standard allowance was issued daily. After this there was no hunger strike. The Khelafat prisoners left on the 12th March 1922, and the Superintendent hoped that matters would gradually become normal. He however noticed frequent complaints by the Muhammadans about the facilities for saying their prayers and other religious observances and the unusual calm and quietness of the convicts. There is, he says, a certain amount of tyranny amongst the warders which he severally punishes whenever brought to his notice. On the 26th April a mutiny occurred in the jail with regard to which there are two versions—one of the jail staff and the other of the convicts.

The story put forward by the jail witnesses is as follows: The prisoners are opened out at 5-30 A.M., and are placed in files consisting of 5 to over 20 convicts for roll call. Each file being in charge of a convict overseer, who is responsible for the file placed in his care. When the files are ready, jamadars or Head Warders hold the roll call, after which the jamadars report to the Chief Head Warder that all the files are correct. The convicts are then taken away to their respective meals and work. There is no fixed hour for the Muhammadans to say their prayers in the morning—some say them in the wards, wherein water is provided for them—some say their prayers after roll call. They are never permitted to break their files to say prayers.

## THE ALLEGED ASSAULT ON THE CONVICT NEAMUTULLAH.

On the morning of the 26th April, Mr. Ryan, the Head Jailor, opened out all the convicts by 5-30 A.M., and left for his quarters as usual. Jugdeo Sing, an officiating Head Warder was one of those who held the roll call that morning at 6 A.M. On coming to a file under convict-overseer, Sunder Khan, which should have consisted of 18 men, he found one short. He asked Sunder Khan where the absentee was. Sunder replied that the man was there a short time previously, and said he (Sunder) would find him out. Jugdeo told Sunder to fetch him. Jugdeo in the mean time held the roll call of the remaining files, and then returned to Sunder's file and found the absentee Neamutullah there. He asked Neamut where he had been—the latter said to the Jute Mill section to say his prayers. Jugdeo then went and reported the total number of the files to the Chief Head Warder, after which he returned to Sunder's file and took Sunder and Neamut with their tickets to Ryan, and Babu Nandan Sing, the Chief Warder, and reported to them that he had found Neamut out of his file, and that Sunder Khan could not keep his file properly. Ryan questioned Neamut who stated that the reason why he was absent

during roll call was that he was saying his prayers at the time, and that when the jamadar got near him, he was making his way to join his file. Neamut complained that the jamadar has abused and slapped him and taken him to task for not being in his file. Ryan asked him if the jamadar had interfered with his prayer, and Neamut said he had not. Ryan and Tully, the workshop-foreman, then investigated the matter and put up both Neamut and Sunder Khan before the Superintendent, Colonel Hamilton, and reported to him that Neamut had broken file without leave and that Sunder Khan had not reported the breach of discipline. Colonel Hamilton asked Neamut in Hindusthani why he had broken file. Neamut made no defence and gave no explanation. Taking this as an admission of his guilt, he awarded him as punishment one night's handcuff. Sunder Khan pleaded that he did not know why he had been put up and did not know what offence he had committed. On the Jailor's report that after enquiry he was satisfied that Sunder Khan knew that Neamut had broken the file but did not report it, Colonel Hamilton deducted three days from the remission he had previously earned The Colonel then went round the jail and visited the wards and workshops, but did not notice anything unusual at the time, as all the convicts were quiet and respectful.

The story put forward by the convicts and Neamutulla is as follows : At 6 or 6-15 A.M. on the 26th April they were opened out as usual. Neamut and his file in charge of convict overseer Sunder Khan came to a spot near some railings for the purpose of having the roll call. Neamut asked for and obtained permission to say his prayer just behind the railings close to the spot. After washing his hands, he began to say his prayers. Jamadar Jugdeo Sing came and said to Sunder Khan, "*Sala*, you allow the convicts to break the file and say their prayers. " Sunder Khan replied, " Why are you abusing me—he is a member of our file, and he is saying his prayer there whenever a jamadar comes to count my file, I always show him the man at prayer and ask him to count him in." Although there were a several Muhammadans in this file, Neamut was the only man who was saying his prayer at that time. Jamadar Jugdeo then said to Sunder Khan, "*Sala*, you are answering me"—gave Sunder two slaps, one on the neck and one on the left side of his face, with his right hand. Sunder Khan kept silent through fear. Then Jugdeo pointing out Neamut said, " Very well *sala*—I shall see him also—he is nothing but a thief, and he wishes to play the role of a Mollah here"—he further abused him very filthily. Neamut says that he was on his knees and was just bending forward when Jugdeo stamped on the centre of his back with his right foot. He also states that his file was to the north and inside the railings "C—D" on the plan, and that he himself was kneeling at the point " G" on the plan. After Neamut had finished his prayer, he got up and asked the convicts, who had struck him. The convicts pointed out the jamadar. Whereupon Neamut asked the jamadar why he had struck him while he was at his prayer, and that he meant to get justice from the Bara Sahib. Jamadar Jugdeo said, " *Sala* shut up " and gave him a slap on the left side of his face with his right hand. When, however, illustrating how he was struck, Neamut twice struck the right side of his own face with his right hand. Neamut, however, said, " I leave your punishment to God." The jamadar said, " You are invoking God's punishment on me," and gave him another slap. Out of fear Neamut kept quiet. He then asked the mate Sunder Khan to take him to Bara Sahib, so that he might make his complaint to him. After having had some food ; Sunder and Neamut proceeded towards the Superintendent's office when they met the Jamadar Jugdeo near the mill compound gate, a short distance from the verandah in which Jailor Ryan was seated, writing at his table. On seeing them, Jugdeo asked where they were going. Neamut replied " You struck me and my mate—abused us—we are going to lodge a complaint before the Superintendent, the Jailor or, the Chief Head Warder." Jugdeo said, "*Sala*, you are going to complain against me"— he then seized Neamut by the neck and pushed him and sent him sprawling against the iron-railings. Jugdeo then said to mate Sunder Khan "*Sala*, you allow the prisoners to break file, and you take him to lodge a complaint against me," and he pushed Sunder Khan by his neck. Neamut protested, whereupon Jugdeo twisted Neamut's arm. Neamut appealed to the Chief Head Warder, who was standing about 10 feet outside the verandah in front of the Superintendent's table. After which Jugdeo started hitting him again. Neamut appealed to the Chief Head

Warder again, but he says that he did not appeal to the Jailor, because he was partially visible owing to a pillar intervening. Jugdeo then made them sit down. The Chief Head Warder then pointing to Sunder Khan, asked Jugdeo who he was, Jugdeo replied, "This *sala* is the mate" and started beating him Mate Sunder Khan then appealed to the Chief Head Warder, who said, "You *sala*, you brought a convict to lodge a complaint against a jamadar for a trifling matter." Sunder replied, "I have brought him because he wants to complain." Then the Chief Head Warder ordered Jugdeo not to strike Sunder Khan any more. At this time there was another convict overseer named Abdul Mojid standing near. The Chief Head Warder said, "Why is that *sala* standing there." Jugdeo said, "You *sala*, you have come to give evidence for your brother," and gave him a blow with his clenched fist on the left side of his face. Abdul Mojid fell down, became naked, as his *gamcha* had fallen off. Mojid said he had not come there to give evidence, whereupon the Chief Head Warder told him to go away, which he did. All these assaults took place within a few feet from the verandah wherein the Jailor Ryan was sitting at the time. The two convicts remained sitting in front of the Superintendent's table till he came. On the arrival of the Superintendent, the Jailor Ryan handed over Neamut's ticket to the Superintendent, and had a talk with him—Neamut being asked to wait at a little distance. The Superintendent, however, did not question Neamut. The Jailor Ryan then called for Sunder Khan who told the Superintendent in Bengali that the convict Neamut had been struck while he was saying his prayer. The Superintendent said nothing, but immediately passed orders directing Neamut to have a night in handcuff and three days to be cut from Sundar Khan's remission. Sunder Khan's statement is that when he pointed out Neamut saying his prayer, Judgeo said, "*Sala*, why do you allow convicts to break the file" and pulled Sunder Khan by the ear and took him to the railings. Judgeo then approached Neamutulla, kicked him and slapped him. Sunder says that Neamut was on his knees leaning slightly forward, but he (Sunder) cannot say where Judgeo actually kicked Neamut, but that when Neamut had finished his prayer and got up, Judgeo had already left. Sunder does not speak to any conversation between Neamut and Judgeo after the former had finished his prayer nor does he mention any second assault upon the latter. Sunder also mentions the assault by Judgeo on himself, Neamut and Abdul Mojid, near the Jailor's table. He however states that Neamut was saying his prayer at the point "H" on the plan—some 6 feet to the east of the Pepul tree "A" and over 20 feet to the south-west of the point "G" on the plan where, Neamut has said, he was praying. The convict Baker Hossain who, it is alleged, was in another file, close to Sunder Khan's file, states that he saw Judgeo kick Neamut on his buttock, while the latter was praying in a standing position slightly leaning forward with his hands on his knees. He further says that Neamut was struck by Jugdeo after the former had said his prayer, and that Jugdeo took him before the Jailor first, and that Sunder and Mojid came behind. He then saw the jamadar slap Sunder and Mojid. He points out the spot "I" on the plan about a cubit or two to the east of the point "G" as the place where Neamut was praying. Shaik Khoda Bux, another convict, states that Jugdeo gave Sunder Khan two slaps and abused him, and that Jugdeo also struck Neamut with his knee on the buttock and slapped him on the neck with his right hand, Neamut being in a standing position with his body bent almost at right angles to his legs. Kick and slap, he says, were administered almost simultaneously. He points out the spot "J" on the plan where, he says, Neamutulla was praying. This spot was about a cubit to the east of gate "E" on the plan and about 8 to 10 feet to the west of the point "G" where, Neamut says, he was praying.

Shaik Mojid states he saw Jugdeo slap Sunder and pull him by the ear, and then slap Neamut and afterwards kick him—Jugdeo having to bend down in order to slap him, and that Neamut said nothing to the Jamadar Jugdeo because the jamadar had gone away when he finished his prayer. Mojid further says that Neamutulla was kneeling on his knees with his head on the ground. He also speaks to the assault on himself, Neamut and Sunder Khan in the presence of the Jailor He points out "K" on the plan, midway between the points "G" and "J" as the spot where he saw Neamut was saying his prayer and being assaulted.

The convict Bhagirathi Benia states that when Sunder Khan pointed out Neamutulla as the missing man from his file, Jugdeo directed Sunder Khan to give Neamut two slaps and fetch him back. Neamat replied, "How can I assault a man at his prayer—let him finish and then I will carry out your order." Jugdeo, however, came round and kicked Neamut, and afterwards gave him two slaps. Neamut was in a standing posture, leaning forward with his body in a doubled up position, with his knees bent and his hands upon his knees. On receiving the kick, Neamut got up and said nothing. He then turned round facing the Jamadar Jugdeo, who gave him two slaps—one on either cheek. This witness indicates point "L" on the plan which is about 18 to 20 feet east of the point "G" as being the spot where Neamut was kneeling and was assaulted.

Another convict Shaik Kobad states that Jugdeo slapped Neamut on the back of his neck and hit him with his knee on his back. He does not however speak to any assault on Sunder Khan.

Another convict Sitaram Koiry states that Jugdeo told Sunder Khan, "Go you *soorki bacha*"—thrash him (Neamut) and fetch him to me". On Sunder Khan's declining to do so, Jugdeo caught him by the ear and gave him a push and also told him to fetch Neamut. Sunder Khan replied, "I will not". Jugdeo then left. This witness says that he is quite sure that Jugdeo never went near Neamutulla while he was saying his prayer, and that he (Jugdeo) did not strike Neamut. This witness points out spot marked "M," which is about 14 feet to the north of the Pepul tree "A" on the plan and about 25 to 30 feet away from the point "G" on the plan.

Another convict Bejoy Govinda Saha states that jamadar pushed Sunder by the neck after speaking to him, and that he went up to Neamut and said, "Why you are saying your prayer here," and stamped on his back with his right knee, and gave him a blow on his neck almost immediately. This witness also points out the spot "K" on the plan, midway between the points "G" and "J" as the spot where he saw Neamut saying his prayer.

Another convict Ram Kripal Missir states that he heard Jugdeo say, "Why don't you keep this man in the file". He then caught Sunder Khan by the ear and gave him a slap. Jugdeo then assaulted Neamut, who was on his knees with his body in an erect posture, with opened hands in front of his chest. Jugdeo stood in front of Neamut and slapped him on the left cheek. He then struck him with his right knee on the left side of his chest, a little below the shoulder. He says that Jugdeo did not kick or strike Neamut from behind. This witness indicates the point "I" on the plan, a cubit or two to the east of point "G" as the spot where Neamut was praying.

Another convict Shaik Nandoo states that he also saw the jamadar pull Sunder Khan by the ear and slap him. He then saw Jugdeo slap Neamut on his neck and strike him on his back with his knee while Neamut was in a standing position with his hands on his knees and his body bent almost at right angle This witness also indicates the "J" on the plan as the place where Neamut was saying his prayer.

Convict Subodh Kumar Sanyal, who appears to be an educated man and who was an attendant at the time of the occurrence at the Jail Hospital, states that about 9 A.M. on the 26th, the mate Abdul Mojid and two other convicts came to the Hospital to see another convict Hari Charan Dey, and informed him in his presence that the convicts were going to have a row that evening. Hari Charan and the witness asked them what excuse they have for rising that day. They said the excuse they had was that a man was saying his prayer when he was assaulted by the jamadar on duty. Witness asked them if that was really true. They said, "No," but that they would make that excuse. The witness further states that on the 27th Neamut and Abdul Mojid came to him in the hospital and requested him to send a report of the occurrence on the 26th to a nationalist paper, their version being that Neamut was saying his prayer when Jamadar Jugdeo kicked him from behind. Witness asked them why they wanted the matter to be represented in that way when it was not true. They replied that it would make their case strong, and would enlist the public sympathy on their behalf. This matter he reported to Dr. Chakrabutty, who was attached to the Jail Hospital. Dr. Chakrabutty corroborates this latter portion of Sanyal's statement.

The convict witness Hari Charan Dey mentioned by Sanyal in his evidence also corroborates him.

From the above evidence of the convicts, which is of a very contradictory nature, I am of opinion that no assault on Neamutulla while saying his prayers, took place. I think however, judging from the demeanour of the Warder Jugdeo, which at first, until sharply corrected by the Court, was inclined to be insolent, that it is quite possible that Neamut was slapped and abused by Jugdeo. The story of the 2nd series of assault near the verandah, on Neamut, Sunder Khan and Abdul Mojid, alleged to have been made in the presence of the Jailor, is one I do not believe. Mr. Ryan, the Jailor, has sworn that no such assaults took place in his presence or within his view, and I have no reason to disbelieve him.

### THE MUTINY.

It appears from the evidence of the jail staff that about 10-15 A.M., the Chief Head Warder Babu Nandan Sing reported to the Jailor Ryan that the prisoners in the Jute Mill section had refused to take their food. Ryan reported the matter to the Superintendent Colonel Hamilton. The Superintendent asked the cause of it. Ryan stated that the prisoners objected to Neamut being punished and also that the Jamadar Jugdeo had slapped Neamut. The Superintendent then told Ryan to try and settle the matter, and that he (Superintendent) would follow him shortly. Ryan, with Caliston, the Mill Engineer, went to the bag-sorting section. On arriving there, he induced some of the convicts to teake their food, other said that they were afraid of the goonda prisoners (B class), who had ordered them not to touch the food. They pointed out two of the goondas who were forthwith removed under orders of Ryan and placed in cells. Ryan then went to the Jute Mill yard where he found about 300 to 400 prisoners sitting down and refusing to take food which, however, had not been brought to them. He noticed a number of B class prisoners hanging about the doors of the mills with bars, bobbins, etc., in their hands. Caliston informed him that the prisoners were getting out of hand in the Jute Mill. The convicts were then told that if they did not take their food, it would be sent back and also enquired what was their objection in taking it. They replied that they had some grievances. They were asked to sit in a line and relate their grievances. Hearing this, they all jumped up together shouting "Gandhi Moharajki Jai." Just then somebody blew a whistle near the main gate. The sounding of a whistle in jail is an alarm signal. No one was able to say who blew the whistle. This, however, brought out about 20 warders from the Reserve Guard, armed with *lathis*. The appearance of the armed warders aggravated the convicts. They threatened the warders and began to charge them with iron-bars, pieces of steel, bobbins, etc., which they had brought out of the mills. The sound of the whistle was shortly followed by the ringing of the alarm bell called "Pagla Ghanta." At this time the convicts were pelting the warders all sorts of missiles, including brick-bats, pieces of stones, iron-weights, etc. The Jailor and the warders retreated outside the Jute Mill gate which they closed. The warders ran. The Superintendent came up and waved to the men to stop, but the convicts refused to do so, and began hammering at the gate to force it open. About this time a number of warders, armed with firearms, came up. The position at that time became so serious that the Superintendent had to give orders to fire. The warders fired apparently into the air, and nobody was hurt. The convicts thereupon burst open the gate and began to chase the Superintendent and his staff pelting them all the time The latter retreated behind the main gate which they closed just in time to prevent the convicts from rushing in. They, however, came up and began hammering at the main gate in order to break it down and get out of jail. The Superintendent thereupon ordered the warders to fire through the loopholes of the main gate. This was done with some effect. He also ordered the warders posted in the verandah of the Jailor's quarters above the main gate overlooking the jail compound, to fire at the convicts below. This had very great effect. One convict was killed and another was hit and died shortly afterwards. The convicts then retreated behind the mill compound gate and began hiding themselves. The Superintendent then gave orders that the jail walls should be surrounded by armed men in order to prevent prisoners from escaping. It was then seen that the convicts had set fire to various buildings (jute and oil godowns). It was then that the police and the Fire Brigade were requisitioned. Soon after this, Mr. Thorp, the Additional Superintendent of Police, Alipore, arrived followed by Mr. Wilson, the Deputy

Commissioner of Police, Calcutta, and other police officers. The fire engine also arrived. The Superintendent, after consulting with Mr. Wilson, decided not to enter the jail until the arrival of the military force. A little after this, Mr. Clarke, Commissioner of Police, Calcutta, arrived with one company of West Kent Regiment and one of the 90th Punjabees and Major Bailey, the senior officer present, took charge of the situation and entered the jail. The West Kents going to the right or north side of the jail, and the 90th Punjabees to the south and the Fire Brigade, under Captain Westbrook, started operations. The prisoners by this time were quiet and congregated at the different parts of the jail. The Superintendent then ordered all the dead and wounded to be removed to the Hospital where they were attended to by the jail medical staff assisted by the Police Surgeon and some medical men from the Sambhu Nath Pandit Hospital. Five dead bodies were first brought to the Jail Hospital and later on another dead body was also brought in. Two of them were found close to the main gate and the rest were found at different parts of the jail. Lieutenant-Colonel Moses, the Police Surgeon, held *post-mortem* examination on the dead bodies of nine convicts; three of whom, he says, were killed, probably by bullets, the rest by buck-shots. Besides those killed, there were 49 convicts injured by gun-shot wound, who have been treated and subsequently discharged. Of the jail staff, Warder Ram Janam Panday was injured on the head by the convicts and died in Sambhu Nath Pandit Hospital. Five other warders were seriously injured and sent to Sambhu Nath Pandit Hospital They have since recovered. Thirty-one others, including the Superintendent, Jailor, six Assistant Jailors, Mill Engineer and European and Indian warders were also injured.

The story put forward by the convicts is that at 10-30 A M. they came to the Feeding-yard where the roll was called. They then sat down in a file and said that they would not eat any food until the Bara Saheb came, and they had made their complaints to him. Shortly thereafter, the Jailor Ryan, Chota Saheb (Caliston), the Assistant Jailor (Digen Babu), the Chief Head Warder (Babu Nandan Singh) and the warders Jugdeo and Fateh Bahadur came to the Feeding-yard. The Chota Saheb said in an angry tone, "Why are you not taking your food". The convicts replied, "We have been punished for nothing, and no one seems to have taken any notice of that—let the Bara Saheb come and we will eat." Fateh Bahadur then said, "Cool the *salas* down, and they will eat," and Caliston said, "Yes, in a moment I will set them right." Then the Jailor and others went towards the Old Mill and asked the convicts there if they would eat their food or not. Then one of these or another sepoy on duty blew a whistle from outside the Feeding-yard. Thereupon a large number of warders, armed with *lathis* and guns, ran towards the Feeding-yard. Prior to the whistle, there was no *golmal*. The warders attacked the convicts with their *lathis* and rifles and with their belts. The convicts then began pelting the warders and chasing them. These the latter retreated till they got to the other side of the mill-compound gate. Some of the convicts say that they never went beyond that gate—others say that some of them did go to the other side of the mill-compound gate and chased the warders up to the main gate. They then saw firing going on from all directions—from the main gate, from the Jailor's verandah, from the Sergeant's quarters to the west, from the trees and from the Police Hospital. They thereupon retreated and hid themselves in various parts of the jail.

There is no doubt from the evidence that the convicts were in a state of restlessness and discontent, and that the blowing of the whistle and the sounding of the alarm bell, called "Pagla Ghanta," followed by the advent of the armed warders had the effect of causing them to take up a hostile attitude and then attack the jail staff. In my opinion they were the aggressors and not the warders.

One of the convicts Baker Hossain states that none of the convicts entered the compound gate—that a convict was shot under a big Pepul tree opposite the Superintendent's office, near the verandah, who had come to work there. Sheikh Kobad states that this man, with another, was carrying water when he was shot. Pir Muhammad however states that five or six of the attacking convicts rushed up near the side main gate—two of them were shot, the remaining three or four convicts began running towards the mill. One of these was shot and he crawled away towards the big Pepul tree. I have no doubt whatever that the man, who was shot, was one of the attacking convicts.

**DEATH OF MUHAMMAD SHAFI.**

A convict named Muhammad Shafi was confined in cell No. 6 at the time of the occurrence. Convict Baker Hossain states that at the time the warders attacked the convicts with *lathis* and rifles, the jamadar Mohabir Sing snatched the key from the mate in charge of cell No. 6, opened the cell and had Shafi pulled out, that Fateh Bahadur and two other warders were there. Fateh Bahadur struck Shafi with his knees, others also struck him and Shafi was killed. Baker states that Shafi was not shot, that a doctor from outside (meaning Lieutenant-Colonel Moses) came and examined Shafi's dead body and asked how the man died, as there were no bullet marks or knife wounds on him. Another convict Bhagirathi Benia corroborates Baker as to the snatching of the key and the door of the cell No. 6 being opened and four sepoys entering the cell. He further states that he saw these four sepoys coming out of the cell, but he did not see what happened inside. He at first said that he did not see Shafi's body being dragged out of the cell; he subsequently said that he did see it. He further said that he saw Shafi's dead body in the hospital with the throat swollen. Amed Khan, who was in charge of cell No. 6, however, states that the key was with him and the door was opened and Shafi was eating his food at the time. He states that on seeing the sepoys, coming armed with *lathis*, he got frightened and ran away and hid himself. He subsequently saw the dead body of Shafi lying inside the cell, and he, with the assistance of another convict, removed it just outside the cell, and that he carefully examined the body and found no marks.

Lieutenant-Colonel Moses states he examined Muhammad Shafi and found he had been shot in the left arm-pit, and that a buck-shot had passed through the left lung and the covering of the heart in which he found a buck shot. Death, he says, was due to gunshot wound. There is nothing to show that the man had been throttled or strangled. Lieutenant-Colonel says that he first saw the dead body in the verandah of the Jail Hospital after the occurrence, and that several convicts at the time told him, rather excitedly, that the man had either been throttled or strangled by the warders. He looked in a cursory manner and found no marks visible externally either of throttling or of strangulation and he said so. Finding that the man was dead, he left him to render aid to the wounded and living. He did not look for or find any gun-shot wound on the body. From the evidence it appears that the time of occurrence was the meal time for the convicts, and they were always taken out of their cells to eat. It is clear that Muhammad Shafi was killed by a gun-shot wound and was neither throttled nor strangled as stated by the convicts.

The convicts Shaik Khoda Bux, China, Kali Pada Banarji, Meher Sing and Juggernath Benia state they saw a fellow convict named Bhagwan Das, who was hiding in the carpenters' section behind some wire-netting, shot and the bullet appeared to have been fired from the direction of the European Sergeants' quarters. Another convict, it is alleged by convict Pir Muhammad, was shot while he was at a window on the first floor in the western block of the prisoners' ward. Beyond the fact that two bodies were found near the precinct of the main gate, jail staff was unable to supply any information as to the different places where any other dead body was found.

The convicts allege that they saw a lady firing from the Jailor's quarters and another lady from the European Sergeants' quarters. The jail staff deny this. I examined Mrs. Newey, who is the only lady living in the Sergeants' quarters. She lives in the ground floor. Her husband, a warder attached to the Alipore Jail, was away on duty at the time of occurrence. She states that she never went upstairs nor did she shoot, but on hearing the row and the firing and seeing armed police passing her door, she thought that the matter was serious and so she locked up her door and went to the Deputy Superintendent's wife (Mrs. Gasper). I have no reason to disbelieve her, and I do not believe that any lady fired from the European Sergeants' quarters.

The story that a lady fired from the Jailor's quarters is also denied by the jail staff. Mrs. Ryan, the only lady living there with her infant, also denied it, and I have no reason to disbelieve her. It appears, however, that Rev. Grymes, who is the Jail Chaplain, was present at the time of the occurrence, dressed in a long white cassock and a white helmet, and that he went on two or three occasions on to the verandah of the Jailor's quarters, while the firing was going on, but took no part in it, it is quite possible that the convicts mistook the cassock for a lady's dress.

**SHOOTING.**

It appears from the evidence that the jail armoury containing the ammunition and the rifles used by the jail staff is outside the jail. There are two keys of the armoury—one kept by the Head Warder Mohabir Sing and the other by the sentry on duty. The armoury being kept locked. The ammunition served out to the warders, consists of blank and buck-shot cartridges. There are also a considerable number of ball-cartridges. These, however, are only intended to be used for Target practice. After the occurrence it was found that 25 rounds of blank, 260 rounds of buck-shots and 123 rounds of ball-cartridges had been used This appears from the "Ammunition Register." The firing seems to have been from the loop-holes of the main and side-gates, the Jailor's quarters upstairs, the European Sergeants' quarters to the west of the jail premises and from the Army Clothing Department and also from the surrounding trees. At the time of the occurrence, the Reserve-Head Jamadar with his armoury key, appears to have been cut off from the rest of the jail staff by the convicts. The Warder Shaikh Wahed Ali states that he heard the ringing of the alarm bell and saw a crowd of Babus, sepoys and sahebs inside the main gates, and he heard the crowd say, "Open the magazine". He took the key from the sentry and opened the armoury. Then the Babus and the sepoys immediately got into the armoury and the sepoys helped themselves to the rifles. There was a large wooden box which contained all kinds of cartridges, blank buck-shots and bullets. This box he broke open and the crowd helped themselves to the different kinds of cartridges, including ball-cartridges, no one being there to supervise. Had the ball-cartridges been kept separately from the rest, there would have been no danger of their being misused. The rifles are all numbered, but there is no book showing the respective number of each rifle.

While inspecting the various buildings in the jail premises, I observed innumerable marks of gun-shots on the walls, etc., as per plan annexed. The walls marked 2 to 7 in the plan were covered with shot marks as indicated in the plan. These seem to have been fired through the side-main gate and from the verandah of the Jailor's quarters. The shooting appears from the marks on the walls to have been somewhat wild and fortunately mostly over the heads of the convicts.

No 8 on the plan depicts the carpenters' shed, which is partially roofed in by corrugated iron and closed in by a thick wire-netting. The wire-netting and the roof have been pierced in a great number of places, as has been shown in the plan, by bullets. These are alleged to have been shots from the Sergeants' quarters, and judging by the marks, the allegations seem to be correct. According to the evidence a number of convicts had secreted themselves behind the wire-netting and under the corrugated shed. I can see no justification for this firing at this shed. The convicts were not escaping from there, but in fact were escaping from the passage directly south and in line with the Sergeants' quarters, as noted in the plan.

Nos. 9 to 12 on the plan represent the west face of the prisoners' ward—9 to 16 which bear bullet marks as are shown in the plan. I can see no justification for this shooting also, which appears to have come from the direction of the Sergeants' quarters or the surrounding trees. Nor do I see any justification for the shooting at or in the direction of the prisoners' wards 17 to 24 marked 13 to 17 on the plan with their respective bullet and shot marks. It is also in evidence that some firing took place from inside the Police Hospital quarters into the jail yard for which I also can see no justification as the convicts there were endeavouring to put out the fire, which attempt had to be abandoned.

It appears that before the jail was surrounded and the firing from outside commenced, a number of convicts, including one Golam Kader, the notorious cabin-thief with a number of previous convictions, escaped at the spot marked on the plan to the east of the Sergeants' quarters. The convicts at first tried to break through the wall, but finding it too thick, they escaped by means of ladders. No one, however, fired in this direction as the escape had already been effected and was not discovered till after the occurrence

From the facts disclosed by the evidence before me, I am of opinion that prior to the advent of the Khelafat prisoners on the 9th of December 1921, the ordinary convicts were fairly contented with their lot, The arrival of

the Khelafat prisoners and the differential treatment meted out to them by the jail staffs sowed the seeds of discontent and insubordination in the minds of the ordinary convicts and rendered them prone to revolt on getting a suitable opportunity. The alleged assault on Neamutullah in the morning, while at prayer, and on the convicts by the warders at the feeding yards, were really excuses to that end. The situation probably would have been, for the time being, smoothed over, had not the whistle been blown or the alarm-bell rung and the warders armed with *lathis*, arrived at the scene. The firing, it is alleged, lasted between half an hour and two hours. That from the main gate and the verandah upstairs appears to have been necessary and justifiable to prevent the convicts from breaking out of the jail. The shooting from the other quarters into the jail appears to me to be unjustifiable, as it is apparent that it was not directed at the prisoners who, it is alleged, have escaped, or at those who are trying to escape, but rather at those who were concealing, or attempting to conceal, themselves or were endeavouring to extinguish the fire.

In conclusion I would like to place on record my appreciation of the valuable assistance rendered to me in this enquiry by the Public Prosecutor, Rai T. N. Sadhu Bahadur.

D. SWINHOE,

*Chief Presidency Magistrate, Calcutta.*

*The 6th June 1922.*

The recommendations called for under Rule 6 shall be made in the first instance from the list of candidates who sat at the annual competitive examination held in India for the Indian Civil Service in the year in which the selection is to be made and secondly from the list of those who, having applied to sit for that examination, were not awarded a certificate of selection by a Quota Committee. If sufficient suitable candidates are not available from those sources, the Local Government shall call for fresh applications.

8. The Governor-General in Council, after considering the recommendations received from the Local Governments, shall propose candidates for appointment.

These applications will be forwarded to the office of the Inspector of Schools. The Inspector of Schools will then countersign the applications of those candidates who pass the test and forward them to the candidates direct for transmission to the Registrar with the fees for the examination.

(*f*) Some information as to how simple complaints, wounds, snakebite, burns, etc., should be treated ; how a drowning person should be handled, etc.

The teaching must proceed not merely by precept but by example. ## Geography.

**For use in the Upper Classes of High Schools in Bengal.**

**The teaching of this subject, by whatever method is adopted, must in every case be supplemented by the use of maps, charts and pictures. Teachers should consult the "Teachers' List" and apply to leading publishers for their lists, as these are now comprehensive and specially adapted to the needs of Indian schools. Such pictures as "Scenes from other lands" (Macmillan) are suitable for school work, are interesting to children and bring brightness and colour to the class-room. Head Masters are requested to see that all the school maps and pictures are on view every day and not stored in office-rooms.**

### GEOGRAPHY.

| | | |

The World with fuller treatment of India (Longman's Geographical Series for India, Book II).

| | | |
|---|---|---|
| F. D. Unstead | ... | The Practical Geography, Parts I and II. |
| B. C. Wallis | ... | Macmillan's Geographical Exercise Book (India). |

* Open only to candidates whose vernacular is not this language.

The following books are recommended for the use of teachers :—

| | | |
|---|---|---|
| Blandford | ... | The Rudiments of Physical Geography for the use of Indian Schools. |
| Frew | ... | A Regional Geography of the Indian Empire (Blackie and Son.) |
| Wallis | ... | The Teaching of Geography (Cambridge University Press.) |
| O'Malley | ... | Bengal, Bihar and Orissa, Sikkim (Macmillan & Co.). |

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools :—

| | | |
|---|---|---|
| A. E. Frye | ... | The Child and Nature. |

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

I.—(The total cost need not exceed Rs. 65).

(1) A measuring tape.
(2) A magnetic compass.
(3) Squared paper and tracing paper.
(4) Clay, dry sand, paper pulp for modelling.
(5) A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines only of the land masses marked upon it.
(6) A map of the school locality on a scale of 4" or 6"=1 mile.
(7) A map of the district in which the school is situated on the scale 1"=1 mile.
(8) A coloured map of the province.
(9) A coloured political map of India.
(10) A physical map of India.
(11) A relief map of India.
(12) A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlasse, or with the necessary hand maps, and with a drawing instrument box. Maps for school work should not contain too much detail or be crowded with names.

II.—The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography :—

(1) A thermometer.
(2) A mercury barometer.
(3) A rain-gauge.
(4) A small collection of typical rocks, in particular those of the province and India.
(5) A small museum of typical products.
(6) A good standard atlas.
(7) Geographical pictures.
(8) Magic-lantern and slides.

1. The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5 respectively.

2. Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London. Small hand Globes of German make can be obtained through the Indian School Supply Depôt for about a rupee each.

3. The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Standford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District maps: also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablche French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armond Collin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

4. The hand-maps, coloured to indicate relief published by the Diagram Company West Barnes Lane, New Malden, Surrey, at one penny each are the best of their kind.

The uncoloured half penny maps, showing river systems and a few towns, published by the same Company are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Messrs. Edward Standford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15-inch map of the world on Mollweide's equal area projection is especially to be commended.

5. Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris and Messrs. Holzel of Vienna and Messrs. Longmans Green and Company. The cost, delivered in India, from two to three rupees each.

Map lantern slides and view sides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

## ELEMENTARY MECHANICS.

The following books are recommended :—

| | | |
|---|---|---|
| Sir Philip Magnus | ... | Elementary Mechanics (Longmans, 1903). |
| A. N. Sen ... | ... | Elementary Mechanics. |

Wall Crane.
Becker's New Physical Balance.
Set of Gramme Weights (200 grams to 1 mgr.).
2 Composition-ivory Balls.

*Note.*—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.

**Babu Brajamohan Dutt's Prize for Indian Ladies for the year 1922-23.**

THE following subject has been selected for "Babu Brajamohan Dutt's Prize" of Rs. 45 for the year 1922-23 :—

*Importance of the Study of Sanitary Science in our Girls' Schools*

The conditions for the award of the prize are—

(1) That the competition be open to all educated women, being natives of Bengal, without regard to age.

(2) That the prize of Rs. 45 be given for an essay to be written either in Bengali or Sanskrit.

(3) That the essays be sent to the Central Text-book Committee for adjudication within six months of the date of advertisement.

(4) That each essay be accompanied by a written declaration from the husband, parent, or guardian of the competitor that, to the best of his belief, she has received no assistance of any kind, direct or indirect, in writing the essay.

Candidates are requested to send their essays not later than the 31st December 1922 to the Secretary to the Central Text-book Committee, Office of the Inspector of Schools, Presidency Division, 8, Dalhousie Square, Calcutta. The envelope containing the essay should be superscribed "Brajamohan Dutt's Prize Essay." The name of the successful competitor will be published in the *Calcutta Gazette*.

A lady who wins the prize in any year is not debarred from subsequent competition, and if the essay submitted by a competitor who has been previously successful is adjudged to be the best, the name of such a competitor will be published in the *Gazette* as the winner of the competition. The actual prize will, however, in these circumstances, be awarded to the competitor whose essay is adjudged to stand next in order of merit, provided that her essay comes up to the standard required by the next clause.

If none of the essays come up to a standard which is, in the opinion of the examiners, adequate, no prize will be awarded.

*No. 4590M.—The 28th August 1922.*—In pursuance of section 49, sub-section (*1*), of the Calcutta Improvement Act, 1911 (Bengal Act V of 1911), it is hereby notified for general information that, in exercise of the power conferred by section 48 of that Act, the Government of Bengal (Ministry of Local Self-Government) are pleased to sanction the general improvement scheme known as scheme No. I—Burrabazar, which has been submitted to them by the Trustees for the Improvement of Calcutta under section 47 of the said Act.

2. A description of the scheme is given as follows:

This is a general improvement scheme, which provides for the re-arrangement and re-construction of the streets and buildings within the area of the scheme. Thirty per cent. of the masonry buildings are reported to be unfit for human habitation and only 10 per cent. are in a really satisfactory sanitary condition. The roads are too narrow for health, and light and ventilation are generally defective.

The scheme also provides for the acquisition of all the lands within the area and the land will then be relaid out, so that all buildings, when re-erected, will abut on a street of adequate width. The proposed lay-out of building sites is shown in the plan, but this may be modified to suit the wishes of individual owners. Any owner of a new site who erects buildings on it of a sanitary character will be able to exempt his property from acquisition under section 78 of the Calcutta Improvement Act, and where any person is the owner of the greater portion of a new plot, the Board are willing to arrange that he should retain possession of the new plot on terms to be arranged. Land which comes into the possession of the Trust will be cleared and sold.

Monohardas Street and Moyrahatta Street will be widened to 45 feet.

Pagayaputty Street will be widened to 20 feet. Of the east and west roads, Cotton Street will be widened to 40 feet.

Burtolla Street and Meerbohorghat Street to 60 feet.

Chaitan Charan Sett Street extension to 40 feet and Banstolla Street to 40 feet

In addition to the details required on the reverse, clear information should be given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the borrowing body has taken, or has agreed to take, in order to make good the deficiency.

(1) The normal surplus shewn in column 20, viz.,—Rs. 27,350, is not a true index of our present financial position. Although the average ordinary expenditure is to a certain extent above the average income calculated on the figures in columns 17 to 19 and 13 to 15, respectively, still the Water-rate Fund from which the repayment regarding the present loan is to be made, is in an affluent condition, the average annual saving during the last five years from 1916-17 to 1920-21 being Rs. 27,772.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the local body.

(2) From the beginning of the last financial year, the latrine fee has been revised from which we expect an increase of about Rs. 1,12,000 at the end of the year. The latrine fund was working at a deficit for the last several years and showed a debit balance of Rs. 48,900 at the end of 1920-21. This deficit will be wiped off at the end of the present year Hence from next year, our current expenditure would not be larger than the current income, and there will not be a debit.

(*c*) A statement of all outstanding loans as well as the annual charges involved on their account.

(3) Last two quinquennial revisions of assessment yielded, an increase of about 25 per cent. on the valuations, about Rs. 40,000 per year in the Municipal revenue and this progressive increase of revenue may be utilised in meeting the repayment charges. Out of the above increase, taken at 15 per cent. at the lowest, Rs 9,000 will be consumed by the General Fund, leaving a surplus of Rs. 6,000 for the Water-rate Fund. The surplus in that fund will therefore be considerably augmented from the end of this year and will come up to about Rs. 34,000. Hence there will be no difficulty in meeting the repayment charges of about Rs. 26,988 for this and the other loan of Rs 2,50,000 already applied for.

(4) In 1926, a loan of Rs. 15,00,000 will be wiped off and this will set free a sum of Rs. 86,000 out of which Rs 40,000 will be available for water-works purposes. It is, therefore, clear that the repayment charges will not interfere with the current municipal expenditure, which will not have to be curtailed in any way whatsoever :—

### Rules for admission to the Government Weaving Institute, Serampore.

#### Object for which the Institute is established.

THE Weaving Institute has been established with the object of giving technical instruction in the best and latest methods of hand-weaving, of extending a knowledge of the mechanical improvements which make the modern hand-loom so vastly more effective an instrument than the primitive looms still widely used by native weavers in Bengal, and so of strengthening and reviving the weaving industry in this country.

With these objects in view two distinct grades of instruction are given, forming higher and lower classes, respectively—

(1) to young men of fair education, who may be trained as teachers, managers and organisers of the weaving industry. These form the higher classes;
(2) to actual hand-loom weavers. These form the lower or artisan classes.

The institute is staffed and administered by the Bengal Government. It is managed by the Principal under the general control of the Director of Industries, Bengal.

#### RULES FOR THE HIGHER CLASSES.

1. The number of admissions to these classes in each year is limited to 75. Twenty-five per cent. of the seats will ordinarily be reserved for Muhammadan students, the claims of eligible candidates in excess of this number will be considered on their merits.

2. Candidates for admission must have passed the B class final or the University Matriculation Examination or have been trained in one of the Technical Schools affiliated to the Joint Technical Examination Board up to the Lower Subordinate standard

3. The session begins in the third week of November. All applications for admission should reach the Principal by the first week of October and should furnish the following particulars :—

(*a*) Name, address and occupation of father or guardian.
(*b*) Race and religion.
(*c*) A medical certificate showing that the applicant is in good health.
(*d*) Educational qualifications.
(*e*) A certificate of good moral character from the last Head Master or Principal,
(*f*) An attested certificate of age of the candidate.
